

Wristband Dispensing Machine

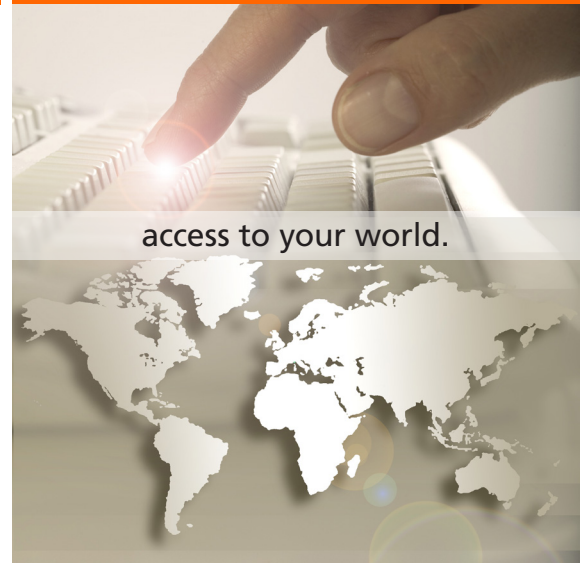

Description

The WBD was specifically designed to simplify and speed up the check-in process. Thanks to its open interface, it can be integrated into all common access control systems. The Chiparmband is issued automatically either by cash or card payment or as a media exchange: Print @ Home tickets, barcode or prepaid cards can be easily redeemed at the WBD.

- » The fully automatic bracelet edition for access to your leisure facility
- » No waiting for entry
- » Sustained relief for the cashier
- » Easy handling for the customer
- » Open interface for all common access systems
- » Automatic media exchange

[WBD]
